

OFFICIAL COMMUNIQUE: APIC

The following announcement is a follow-up to the previous communique released on 15th July 2022.

Conforming to Covid-19 safety measures, the APIC 2020 in India which was to be hosted by CPMA, had been planned tentatively around May 2023.

As the pandemic situation is easing in many countries and its severity has substantially come down, economic activities and international travel has opened up. Still some concerns for international travel persists in a few APIC member countries giving uncertainties about likely participation for APIC conference in May 2023. Hence, members have collectively decided to hold a discussion again in Oct 2022 to plan the date for the next APIC either in 2023 or in 2024.

Let us support one another as we fight the Covid-19 pandemic undivided across borders.

Issued by CPMA
