

**OFFICIAL COMMUNIQUE**  
**Deferment of APIC 2020**

In observing the proper protocols on preventive measures, the APIC 2020 in India which was to be hosted by CPMA, will be postponed until further notice. This follows on the initial communique released on 30<sup>th</sup> November 2020.

The surge in COVID-19 cases has debilitated the situation in India and it would be an inopportune time to announce the new date for APIC 2022. Following deliberation by the APIC Steering Committee, the members have unanimously agreed to review the situation in July 2021 before a decision is reached on the status of APIC 2022.

We look forward to your continued support as we stay united across borders in the fight against COVID-19.
